SUMMARY

Experienced Frontend Developer with over 3 years of experience, skilled in steering projects and features from conception to production readiness. Currently captivated by React and passionate about JavaScript/TypeScript. A perpetual learner, I welcome challenges and am grounded in the belief that *"skills can be taught, and one's personality is inherent."*

EXPERIENCE

Frontend Developer
PT. Docheck Bagi Indonesia

📅 06/2023 - Present 📍 Bandung, West Java

Pioneered front-end development at Wool.id, leading initial web development efforts and establishing best practices for the team.
- Revamped the product MVP to version one, enhanced scalability and reusability in the foundational code for optimal performance.
- As a pioneer played a pivotal role in end-to-end product, covering research, development, testing, and production preparation.
- Initiated and maintained four frontend base code repositories and design patterns.
- Assisted fellow Frontend Developer & intern in essential skills, fostering collaborative and knowledge-sharing practices.

Frontend Developer
PT. Code Development Indonesia

📅 09/2023 - 12/2024 📍 South Jakarta, Jakarta (Remote)

As part of the frontend developer (mobile & web) team of sales & engagement squad in IFG Life
- Contributed to the development and enhancement process within a fast-paced, multi-squad, and tribe-based team environment.
- Implemented strategic refactoring of 100+ lines of legacy code, optimizing for improved performance on Progressive Web Applications (PWAs) and Mobile Applications.
- Identified and fixed cross-browser compatibility issues, enhancing user experience and functionality across different platforms.

Web Frontend Developer
PT. MNC Media Baru

📅 02/2023 - 05/2024 📍 Central Jakarta, Jakarta
- Actively participated in Agile development, consistently maintaining and developing 1-3 features per sprint within the legacy web app codebase.
- Ensured consistent graphics and branding for a seamless user experience. Conducted HTML rewriting for improved SEO and Accessibility.
- Engaged in code reviews, providing constructive feedback to uphold best practices.
- Played a key role in product feature deployment and providing hotfixes to maintain product stability.

Frontend Developer
PT. Orde Digital Intelektual

📅 05/2022 - 02/2023 📍 Bandung, West Java

Contributed as frontend developer mainly in the projects of "Semen Gresik Indonesia".
- Simultaneously contributed to, maintained, and developed new features in the repositories of four different projects
- Integrated security best practices into the development lifecycle, mitigates common vulnerabilities such as XSS, CSRF, and SQL Injection.
- Provided support & hotfix during user acceptance testing (UAT), deployment phases, addressing any issues or concerns raised by end users or stakeholders.
- Coordinated with end users, project managers, and analysts to ensure alignment between project requirements and development efforts.

Web Developer
PT. Transformasi Data Indonesia

📅 03/2021 - 04/2022 📍 Cimahi, West Java
- Completed five projects from scratch, turning prototypes into fully functional applications.
- Implemented and designed application prototypes, ensuring alignment with user requirements.
- Engaged in the initial wave of developers, refining fundamental skills.
- Actively contributed to the improvement and expansion of project features, demonstrating a commitment to ongoing development and enhancement.
